ITerashima Environmental Services

(ITES) is a Honolulu-based environmental consulting firm specializing in environmental science, engineering and readiness training. ITES principal, Ms. Iris Terashima, has worked in Hawaii and the Pacific for 20+ years, and is partnered with many of the local Hawaii as well as U.S. mainland firms—providing a diverse and experienced technical staff of engineers, scientists, and planners for ITES clients.

“We get the job done”

ITES has a reputation for executing projects successfully, and ITES teams have received numerous client commendations. Our responsiveness and commitment to meeting client needs is reflected in long-term client relationships, and we continue to work with satisfied repeat customers.

“I would like to commend the work of Ms. Terashima and her team...Ms. Terashima’s expert management skills kept the base on track which allowed us to present clear and concise plans to Senior Leadership. Her technical expertise, in all areas of the environment, helped us to identify specific environmental issues to address, and her interpersonal skills allowed diverse groups to work together to develop tools to improve how Eielson AFB manages the environment as well as addressing specific shop considerations.”

Francis Isgrigg, Eielson AFB Environmental Flight Chief, October 24, 2006

Training Programs: Course Development and Instruction

National Oceanic and Atmospheric Administration (NOAA) Pacific Region Grants Cooperative 2013

Curriculum development and grant writing workshop facilitation throughout the State of Hawaii.

Preparedness Course Development and Training, National Disaster Preparedness Training Center (NDPTC)

2011–Present

Course development and on-site training for FEMA disaster preparedness courses conducted throughout the U.S., Guam, Saipan, and American Samoa.

Environmental Training, Headquarters Pacific Air Forces (HQPACAF)

2009–Present

Training program development and on-site course instruction at HQPACAF Installations in Hawaii, Alaska, Guam, Korea, and Japan. Courses addressed environmental risks, safety, and occupational health mandates for each Installation and HQPACAF.

DoD Briefings and Resume Writing Sessions, University of Hawaii

2011

Informational briefings and resume writing workshops for the University of Hawaii College of Engineering. The sessions were developed in conjunction with the U.S. Army Corps of Engineers, Honolulu District, Naval Facilities Engineering Command Pacific (NAVFACENGCOM), and private industry.
